

## **CAAM-HP Accreditation**

All American Institute of Medical Sciences (AAIMS) has been granted initial provisional accreditation status by the Caribbean Accreditation Authority for Education in Medicine and Other Health Professions, the accrediting body for M.D. degree programs in the Caribbean Community.

Accreditation standards require AAIMS to address five specific areas in the development phase: Institutional Setting, Educational program, students, faculty and resources. The accreditation process involves several steps, the last of which is completed in the fourth year of enrollment of the inaugural class. Full accreditation of the medical school at AAIMS is expected in 2014.
